*[1] bittr does not charge subscription fees or take a cut in your gains, we therefore charge a fixed fee of 1.5% on incoming funds, transparency we call it! [2] Your bitcoin was bought 13 minutes ago, which was as close as possible to when we received your money. We only send out bitcoin once per hour, to save on bitcoin mining fees. [3] This fee does not go to bittr but directly to the bitcoin miners. Due to the decentralized nature of the bitcoin network, miners have to be incentivized (partially with transaction fees) to keep the network secure.*

Don't forget, if you would like to buy bitcoin to a different address or from a different bank account, simply [register again](#) as your IBAN account and deposit code are irreversibly connected to each other.
