You just put 2.346.980 sats in your piggy bank!

Good job, you've just put 2.346.980 satoshis into your bitcoin piggy bank, keep it up! Here's a transaction overview of your latest deposit:

[1] bittr does not charge subscription fees or take a cut in your gains, we therefore charge a fixed fee of 1.5% on incoming funds, transparency we call it! [2] Your bitcoin was bought 26 minutes ago, which was as close as possible to when we received your money. We only send out bitcoin once per hour, to save on bitcoin mining fees. [3] This fee does not go to bittr but directly to the bitcoin miners. Due to the decentralized nature of the bitcoin network, miners have to be incentivized (partially with transaction fees) to keep the network secure.

Don't forget, if you would like to buy bitcoin to a different address or from a different bank account, simply [register again](#) as your IBAN account and deposit code are irreversibly connected to each other.

Do you have any questions?

On our website, we compiled a list of [frequently asked questions](#) in which we answer questions like "What and how does bittr charge me?", "How long does bittr take to process my order?", "At what intervals can bittr purchase Bitcoin for me?" and many more questions.

We like to help! Send us an email to hello@getbittr.com or simply respond to this email and we'll help you out as quickly as possible!
